

Appl. No. 10/606,395
Amdt. dated May 19, 2004
Reply to Office action of Apr 26, 2004

REMARKS/ARGUMENTS

Claim 1 is amended in consideration of the Examiner's remarks of the 4/26/04 Office Action, to correct the unintended capitalization of the word "one", to delete reference to "wings", and to require that adjustment of the rear appendages controls "both", but not "one or both" of the toy's propulsion speed and direction. It is respectfully presumed that Claim 1 is now in condition for allowance.

Unchanged Claims 2-16, should thereby be allowable without amendment for depending from the presumably allowable base claim.

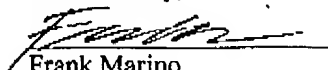

Unchanged Claims 18-21 have already been indicated to be allowable.

Appl. No. 10/606,395
Amdt. dated May 19, 2004
Reply to Office action of Apr 26, 2004

CONCLUSION

The applicant respectfully submits that these amendments have rendered the application allowable, and placed the application in condition for the prompt issuance of a Notice of Allowance, which is graciously requested.

Submitted by,

Frank Marino
